WORK EXPERIENCE

Hotels NG   **FEBRUARY 2023 - PRESENT**

Software Engineer   Lagos, Nigeria

- Redesigned Timbu product quality by engineering comprehensive unit and end-to-end tests, ensuring a significant 60% decline in bugs and fostering customer satisfaction by 80%.
- Implemented cutting-edge front-end technologies, including React.js, TypeScript, and Redux, to develop and maintain high-performing web applications. Leading to a remarkable 30% boost in user engagement and a notable 20% faster page load performance.
- Collaborated with UX designers and product managers to create intuitive UI and data visualization on web and mobile applications, contributing to users engagement through a notable increase of 30% and a 40% reduction in support requests.
- Migrated a CRA application to Next.js, achieving an impressive 80% improvement in Server-Side Rendering (SSR) and 80% traffic growth based on Google Analytics.
- Development and optimization of user-centric Retail-tech/E-commerce solutions like Anthill Eight, Timbu Cloud API, Cars.ng and HNG Tech.

QuellCode   **January 2022 - DECEMBER 2022**

Frontend Developer   Maharashtra, India

- Implemented advanced features and functionalities, enhancing security measures and achieving a commendable 25% reduction in potential vulnerabilities.
- Collaborated with the team to overhaul the website structure, resulting in a 20% improvement in loading speed and overall user experience.
- Leveraging the latest technologies, I optimized our code deployment processes, achieving an impressive 30% reduction in deployment time. This optimization not only enhanced team efficiency but also facilitated faster iterations and quicker response times to client needs.
- Ensured software quality through regular code reviews and integration of automated testing frameworks, leading to an outstanding 95% reduction in defects and a 30% improvement in overall quality.
- Utilized agile principles to optimize code deployment, resulting in a remarkable 50% reduction in deployment time, enhancing team efficiency and enabling faster iterations.

Chemontronix   **September 2021 - JANUARY 2022**

Front-End Developer   Osun, Nigeria

- Conducted codebase reviews and offered constructive feedback, resulting in a 50% reduction in development time and enhanced code quality.
- Incorporated Git and GitHub for version control and collaborated in a competent manner among cross-functional teams, achieving a 30% increase in team productivity and streamlined codebase management.
- Assessed unit testing approach using Jest, RTL and debugging, identifying and resolving issues, resulting in a 25% reduction in critical bugs and achieved application stability.

EDUCATION

Obafemi Awolowo University   **MARCH 2017 - 2023**

BSC. Computer Science

OTHERS

Technical Skills: TypeScript, Next.js, TailwindCSS, RTL(React Testing Library), Jest, Prisma.js, React.js, Node, Vue, Nuxt.

Certifications & Training: HNGi9, kodeCamp Intermediate React training.

Language: English(ESL), Spanish(LEVEL A1)
